

KAAPPICO

Rooted in Wayanad. Roasted in London.

We are passionate about bringing the authentic flavours of Wayanad, India, to your cup. Our journey begins in the lush plantations of Wayanad, where the finest coffee beans are meticulously hand-picked by expert farmers and carefully selected for quality. These premium beans are then roasted with expertise in the UK, ensuring a perfect balance of tradition and excellence.

Our Story: From Estate to Cup

Kaappico is a UK-based premium coffee brand born from a passion for authenticity and uncompromising quality. We partner exclusively with the most celebrated coffee estates of Wayanad and Chikmagalur—legendary regions that have perfected the art of coffee cultivation for generations. These aren't just any beans; they're the result of centuries of expertise, terroir mastery, and an unwavering commitment to excellence.

Every relationship we build with our farmers is rooted in fairness, transparency, and respect. This isn't just business; it's a commitment to preserving craft and ensuring quality from soil to cup.

The Kaappico Difference

Freshly Roasted in the UK

We roast in small batches to order, ensuring every bag reaches you at peak freshness. No stale coffee. No compromises.

Direct Farmer Relationships

Quality starts at origin. We work directly with trusted growers, ensuring traceability, fairness, and exceptional beans.

Premium Packaging

Our signature blue and black quad-seal bags protect flavour and freshness whilst making a statement on any shelf.

Authentic South Indian Character

True terroir. True flavour. We bring the distinct, bold taste of South India's legendary coffee regions to the UK market.

A Market Ready for Something Real

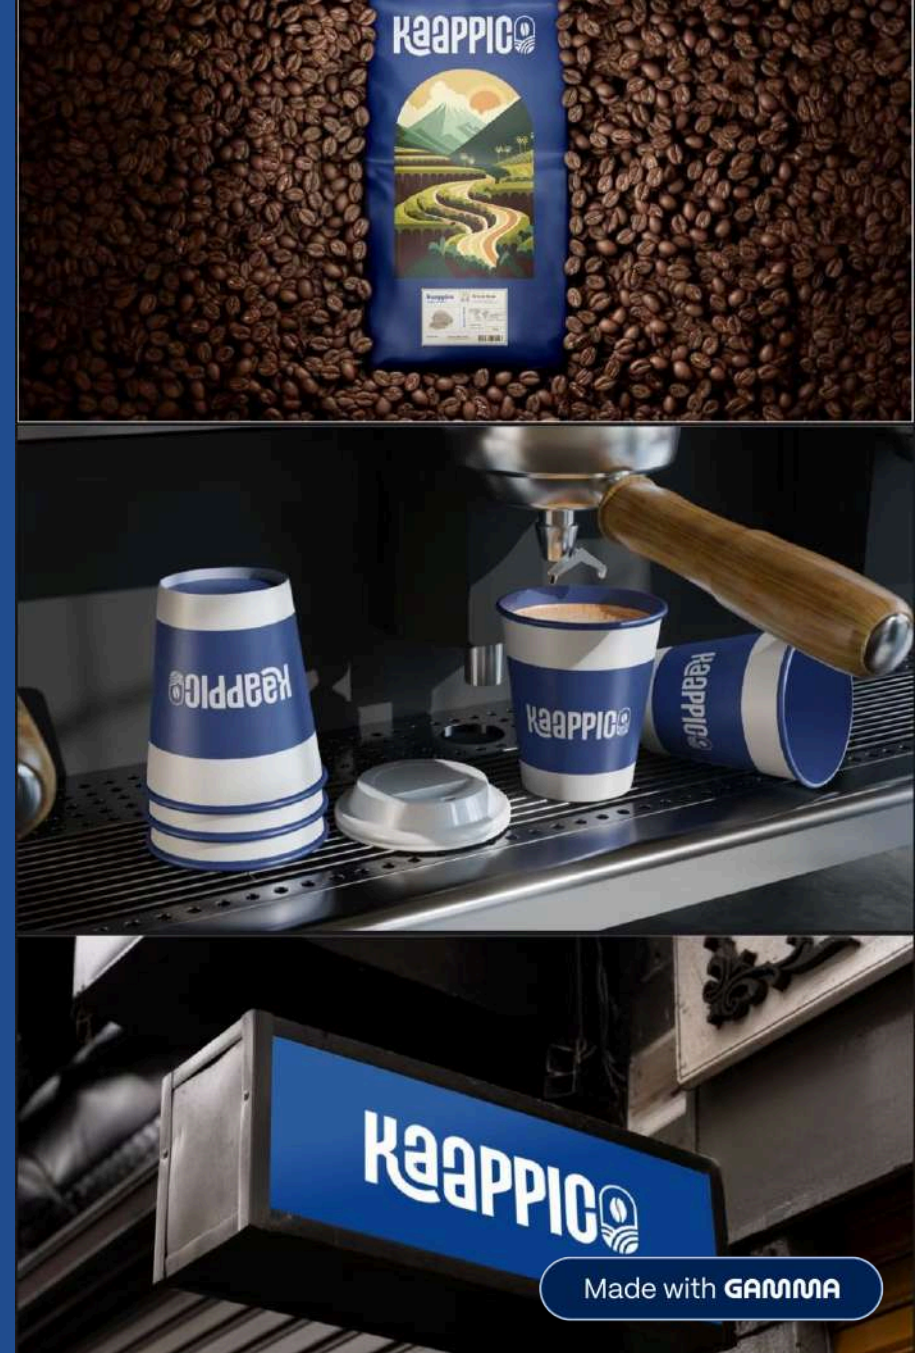

The Opportunity

The UK whole-bean market continues to expand as discerning consumers and cafés seek authenticity, transparency, and exceptional flavour.

Yet South Indian coffee—despite its rich heritage and unique profiles—remains underrepresented. Kaappico fills that gap with genuine, high-quality offerings that stand out.
